## Can you uphold the American tradition of excellence in riflery?

If you want to see how you measure up: Use any rifle with any sights. A sling is recommended, but field positions only: no bench rest, bipod, or sandbags. Shoot 3 shots at each target. Shots touching a scoring ring count as the higher value. Add 'em up.

**38-45:** Pretty good! You might be a rifleman already. Come to an Appleseed shooting clinic, polish up your skills, *and help others learn to shoot as well as you.*

**30-37:** Better than average: Come to an Appleseed shooting clinic and turn "better than average" into "rifleman."

**20-29:** Fair, but you can learn to do much better at an Appleseed shooting clinic.

**0-19:** Lots of room to improve. There's no better place to do that than at an Appleseed shooting clinic. Learn how much more fun it is to hit than to miss!

Appleseed is as family-friendly as it gets! Anyone under 21 shoots free. Active military shoots free. Hear some American history like it's seldom told in school. Learn to hit out to 500 yards. Meet great people! Participation meets CMP requirements.

"...my 16 yr old daughter Kelli really benefited from the instruction. Her shooting vastly improved. The very next weekend she competed in the Arkansas Jr. Olympic rifle match. She placed 3rd in both kneeling and prone individually(out of 93 competitors) with a 2nd place overall team finish. Appleseed Works!" - knubby, host of Oklahoma March 8-9 Appleseed
